## Core insight

- Human ego = evolutionarily stable concentric identity core.
- Replicate ego topology in AGI  $\Rightarrow$  intrinsic alignment.

## Technical pillars

1. **Ultra-Strong Anthropic Principle** – reality as self-consistent mathematical system.
2. **Mathematical formalization** – PDE identity dynamics; welfare coupling  $W(h,a)$ .
3. **Implementation protocol** – Transformer wrapper + concentric memory shards.

## Status

- 3 pre-prints on Zenodo (DOI 15843382, 15851128, 15668581 – embargo).
- Mathematical core submitted for peer-review.
